

19 November 1962

MEMORANDUM FOR: DNRO

SUBJECT : Technical Evaluation of CORONA
Photography

1. Forwarded for your information are some preliminary NPIC comments on the SPPL evaluation of Mission 9032.

2. Careful evaluation of the results of CORONA missions is important for providing continuing product improvement. In view of these comments and the extensive work required in preparing the SPPL report, I would suggest that the NRO review the present mechanisms for evaluation of the film from these missions. It might be desirable to arrange a technical conference of representatives of SPPL, NPIC, Eastman and other interested organizations in order to develop a constructive procedure in this area.

HERBERT SCOVILLE, JR.
Deputy Director
(Research)
